

PRODUCT CHANGE NOTIFICATION

Ai PCN No: 163

Date Issued: November 19, 2021
Notice Type: Optical Component Change
Product Type: BX, CX, FX and BT

Change Notification Summary

In an effort to ensure continued production of our BX, CX, FX and BT lights, Advanced illumination (Ai) will be substituting optical components currently unavailable due to supply disruptions. This may result in minor performance differences of the products listed, specifically overall light uniformity and radiant power output. The extent of the differences may vary depending on light type and size.

Please be assured that this is likely a temporary condition - as soon as the original optical components become available, Ai will immediately revert back to the original design and components. All mechanical and electrical characteristics will remain unchanged unless noted otherwise.

Please contact your Ai Sales Representative if you have any questions.

Products Affected

Old PN	Last Order Date	Last Ship Date	Replacement Product
BXXXXY-CCCPP	N/A	N/A	Same Part Number
CXXXXY-CCCPP	N/A	N/A	Same Part Number
